## Disciples Program to Replace SIT Program

2010 will bring a new change to our SIT program. In its place will be our Disciples Program. The Disciples program is designed to challenge high school students to deepen their faith and grow as leaders. Participants will be mentored to strengthen their Christian foundation by adding to their knowledge of the Bible, developing a well rounded prayer life, practicing living their faith in community and learning to share their faith with others. Participants will enjoy assisting in the overall implementation of the summer programs, from leading devotions, to leading small and large group activities and games. They

will have the opportunity to be assigned as an assistant to a cabin group for an opportunity to serve the social and spiritual needs of a camper. Participants will be drawn together in Christian community with campers and staff alike. They will learn service by assisting with the many on-going needs related to the facility and the camping program, including but not limited to, painting,

planting trees, trail work, kitchen aids, etc. (Participants will spend a week in preparation, service, study and fun with designated staff members and spend a weekend of fellowship together. The second full week they will be placed with a group of campers and a counselor to be mentored in that position.)
